

From the Westfjords to World Literature: A Bibliography on *Fostbræðra saga*

RYAN E. JOHNSON

ABSTRACT: This bibliography begins with full entries for Manuscripts. The Editions section attempts to be exhaustive to provide an idea of the current scope of Translations available. The Criticism section has been created with an inclusive set of languages to be as useful to as many as possible and to provide easy access to title information in English.

RÉSUMÉ: Cette bibliographie commence par des entrées complètes pour les manuscrits. La section Éditions se veut exhaustive pour donner une idée de l'étendue actuelle des traductions disponibles. La section Critique a été créée avec un ensemble inclusif de langues afin d'être aussi utile que possible au plus grand nombre et de fournir un accès facile aux informations sur les titres en anglais.

Ryan E. Johnson is a PhD candidate in the Department of History and Philosophy at the University of Iceland.

Full entries for manuscripts have been provided to be of most use to a wide variety of scholarship. Location does not indicate place of writing, but rather the location of the archive that contains it. The Uniform Resource Identifier [URI] for these entries provides a catalogue entry that identifies the source and may provide images if available. Most URI information directs to the common directory of Icelandic and Nordic manuscripts preserved in the University Collection [Háskólabókasafn] at the manuscript department of the National Library of Iceland [Landsbókasafn Íslands], the Árni Magnússon Institute for Icelandic Studies [Árnastofnun], and the Árni Magnússon Collection in Copenhagen [Arnarnagnæanske Samling] located at <http://handrit.is>. The Dictionary of Old Norse Prose [*Ordbog over det norrøne prosasprog*] available at <https://onp.ku.dk/onp/onp.php> is also a valuable resource for information about Icelandic manuscripts.

Print editions have been separately provided. An exhaustive list has been attempted to provide an idea of the current scope of translations available. The section on criticism has been created with an inclusive set of languages to be of most use to as many as possible, and to provide easy access to title information in English. Titles alone have been translated into English where needed within square brackets. The editions, along with the criticism, reflect the current holdings of the Icelandic Collection at the University of Manitoba and the National Library of Iceland [Landsbókasafn Íslands].
